DIV. OIL GAS & MINING

22 April 2003

Mr. Tom Munson
Division of Oil Gas & Mining
1594 West North temple, Suite 1210
Salt Lake City, Utah 84114

Dear Mr. Munson:

This letter is in reference to M/023/059. Enclosed are three maps and a map legend for map #2. Map #2 is a revised map from the earlier map submitted. Map #2a is an aerial view of the same area. Even though this was prior to our involvement in this mine it shows quite well the area disturbed. I am also resubmitted the original topo map with adjacent land owners included.

Please let me know if Map #2 is close to what you and I have discussed. I am working on a cross section diagram but needed two more altitude references. I will get them as soon as the road dries a little more the end of this week.

Sincerely,

Nephi Sandstone

A handwritten signature in black ink, appearing to read "Bruce H. Evans".
